

Sherpath Browser Support

Sherpath is supported on the following web browsers:

- Google Chrome (latest version)
- Mozilla Firefox (latest version)
- Safari (latest version)

All components of Sherpath can be used on one of these browsers with both Windows and Mac computers. All components of Sherpath with the exception of Sherpath Virtual Simulations can also be viewed on Android and iOS mobile devices.

Please note that Sherpath should not be opened in multiple tabs in your browser as this can allow your login session to time out. This can result in loss of student progress data.

Additional technical requirements for Sherpath Virtual Simulations

Operating Systems	Windows 7+ 32-bit Mac OS X 10.8+
Graphics Card	DirectX9 (shader model 3.0) capabilities (every graphics card made since 2004 should have these capabilities)
CPU	Pentium compatible CPU with Multi-Core 4GB+ of RAM recommended
