Save time and enhance the classroom experience with Elsevier Educator Support
Elsevier’s powerful combination of Elsevier Adaptive Quizzing and HESI Review & Testing is the only end-to-end solution for the Nursing market.

Together they offer adaptive and predictive tools designed to assess student readiness for licensure. Plus, they include robust reporting and analytical resources that allow programs to make meaningful, informed decisions for improving student performance and pass rates.

**Elsevier Adaptive Quizzing**
Available for various key titles, Elsevier Adaptive Quizzing (EAQ) helps students of all skill levels focus their study time and effectively prepare for class, course exams, and the NCLEX-RN® exam. With EAQ, you can:
- Allow students to apply knowledge gained from the text and lectures in a friendly, formative format
- Enable students to prepare for course exams, lecture, and licensure
- Use reporting features to determine where weaknesses lie and remediate with the text or by creating custom quizzes in EAQ

Learn more at elsevieradvantage.com/EAQ

**HESI Review & Testing**
Backed by more than a decade of peer-reviewed research and data analyses, HESI provides the most accurate testing and reporting tools for assessing student learning, improving program outcomes, and predicting NCLEX-RN exam success. HESI products include:
- HESI Admission Assessment Exam
- HESI RN Practice Tests
- HESI RN Case Studies
- HESI RN Specialty Exams
- HESI Custom Exams, including HESI Mid-Curricular Exams
- HESI RN Exit Exam
- HESI RN Live Review

Use Giddens’ Concepts for Nursing Practice, 2nd Edition and Nursing Concepts Online (NCO) to help reinforce the integration of conceptual learning in your program.

**Concepts for Nursing Practice, 2nd Edition**
Jean Foret Giddens, PhD, RN, FAAN
February 2016

Use HESI and EAQ together in your courses!
Identify areas needing improvement based on data from HESI reports. Go in-depth with each student’s report to identify weaknesses and create personalized remediation quizzes in EAQ:
1. Administer a HESI exam at any point during the curriculum.
2. Evaluate summary reports and identify large gaps in understanding by class, cohort, or at the student level.
3. Create and assign EAQ remediation quizzes to the entire class or individual students to help close those gaps in understanding and prepare students to pass the NCLEX-RN exam.

**Provide students with valuable clinical experience using simulations**
According to research conducted by the National Council of State Boards of Nursing, the use of simulation for up to 50% of the clinical experience is an effective strategy for preparing pre-licensure students for nursing practice.

Elsevier’s simulation solutions are easy to incorporate into your classroom and offer realistic, hands-on experience in a controlled and monitored environment.
