SAVE TIME and ENHANCE THE CLASSROOM EXPERIENCE with Elsevier Educator Support

TEACH for Nurses

TEACH (Total Education And Curriculum Help) for Nurses, developed in partnership with nursing educators, makes it easier to implement Elsevier texts and eproducts into your curriculum.

Ideal for both new and experienced instructors, these customizable, ready-to-use lesson plans provide everything you need to teach a lesson and make the most out of time spent with students, including:

- Objectives
- Teaching focus
- UNIQUE! Student and educator resource correlations
- UNIQUE! Nursing curriculum standards correlations
- Teaching strategies with learning activities
- UNIQUE! In-class/online case studies
- Answer keys

Included with qualified adoptions to save you course preparation time!

Educator Support

Effectively integrate Elsevier course materials into your curriculum and achieve your educational goals with these educator resources:

- Textbook resources
- Webinars
- Professional development
- White papers
- Education events
- Product training and support
- Academic consulting
- Master Teacher Online
- And much more!

We’ve combined the expert exam development of HESI and trusted content from Elsevier texts to provide you and your students with a preparation, testing, and remediation solution like no other. It’s everything you need to help students excel throughout your program, track their progress, and prepare them to confidently pass the NCLEX-RN® exam.

▲ PRACTICE
  
  **HESI RN Patient Reviews**
  Didactic, knowledge-based patient activities teach and assess retention of clinical content and build students’ confidence before they experience actual clinical situations.

  **HESI RN Practice Test**
  Practice questions written at the application level reflect the standardized item testing formats they will encounter on the licensure examination. Provides detailed answers and rationales.

  **HESI RN Case Studies**
  Challenge students to apply key concepts and develop their clinical judgment by answering questions and viewing rationales for a range of realistic patient scenarios.

▲ REVIEW

  **HESI Admission Assessment Exam Review, 4th Edition**
  Prepare students for their admission assessment exam with comprehensive content review and more than 450 practice test questions on the topics typically found on admission exams.

  **HESI/Saunders Online Review for the NCLEX-RN® Exam, 2nd Edition* **
  Self-paced NCLEX-RN® review equipped with 2,500 NCLEX® exam-style review questions, insightful test-taking strategies and rationales with each question, strategic HESI videos, and much more!

* A tool designed to support NCLEX-RN® exam preparation, NOT a predictor of success on the HESI Exit Exam.

  **HESI Live Review**
  With personalized, onsite instruction by our expertly trained nurse educators, HESI Live Review courses can be customized using your program’s aggregate results to focus on the topic areas where your students need the most help.

  **HESI Comprehensive Review for the NCLEX-RN® Examination, 5th Edition**
  Prepare your students to not only pass their NCLEX-RN® exam, but also their HESI Exit Exam with this concise, all-in-one review.

▲ REMEDIATION

  Your students benefit from personalized electronic remediation from trusted Elsevier texts, case studies, practice questions, activities, and multimedia, targeted specifically to each student’s unique knowledge deficits. Remediation reports help you keep track of students’ remediation progress.

▲ REPORTING

  Detailed diagnostic reports are provided for both students and educators. These invaluable reports not only give you insight into individual student exam performance, but also overall program performance. With HESI Report Builder you can also create your own customized reports to track trends within your program and among cohorts.

▲ EXAM SECURITY

  HESI exams contain numerous functionalities to ensure that each exam remains secure at the highest level.

Transitioning to a concept-based curriculum?
With Elsevier’s site dedicated to conceptual learning,
YOU CAN DO IT!

Elsevier’s conceptual learning hub provides all the information and resources you need to better understand conceptual learning and how to effectively use it in your program or classroom, including:

- The latest white papers, trends, and best practices surrounding concept-based instruction
- Easy-to-follow explanations of conceptual learning, including what it is and why it’s so important in nursing education today
- Steps you need to take if you are looking to transition to a concept-based curriculum
- Resources and services that are available to offer you personalized help with any aspect of your curriculum

Use Giddens’ Concepts for Nursing Practice, 2nd Edition and Nursing Concepts Online (NCO) to help reinforce the integration of conceptual learning in your program.

Concepts for Nursing Practice, 2nd Edition
Jean Foret Giddens, PhD, RN, FAAN
2017

Nursing Concepts Online 2.0
This fully integrated resource combines all of Elsevier’s top conceptual learning tools into one easy-to-use online format. The course is organized around the 58 nursing concepts found in the Giddens text, and creates the ultimate active learning environment for your students.
2017
ISBN: 978-0-323-44644-0

Provide students with VALUABLE CLINICAL EXPERIENCE using simulations

According to research conducted by the National Council of State Boards of Nursing, the use of simulation for up to 50% of the clinical experience is an effective strategy for preparing pre-licensure students for nursing practice.

Elsevier’s simulation solutions are easy to incorporate into your classroom and offer realistic, hands-on experience in a controlled and monitored environment.

SimChart — Educational EHR
Virtual Clinical Excursions — Online hospital experiences
Simulation Learning System — Evidence-based simulation scenarios
Clinical Skills — Web-based skills training

COMING SPRING 2017

Conceptual Care Mapping: Case Studies for Improving Communication, Collaboration, and Care
Yoost & Crawford
February 2017

• UNIQUE! 30 detailed case studies focus on the patients a first-year student is most likely to see in their clinical experience
• UNIQUE! Elsevier’s Conceptual Care Map Creator helps students create, update, manage, and submit their care maps quickly and effectively
• UNIQUE! Conceptual Care Mapping — from the author team who developed this new method of organizing care information — uses the Evolve platform, allowing instructors to create additional case studies

McCuisitton, Vuljoin-DiMaggio, Winton & Yeager
March 2017

• NEW! Streamlined content and improved organization make this edition even more user-friendly for students
• NEW! Expanded chapter on cultural considerations includes new information on community-based nursing
• NEW! Patient Safety boxes reinforce concepts related to medication safety

Castillo
April 2017
ISBN: 978-0-323-44675-4

• NEW! Expanded coverage of QSEN highlights information on the safety and patient-centered care competencies with distinctive icons
• NEW and UNIQUE! Coverage of interprofessional collaborative practice includes integration of interactions with other professions into relevant cases, especially those involving leadership
• NEW! Increased emphasis on delegation, leadership, and collaborative learning promotes professional practice and team-based learning

Maternal-Child Nursing, 5th Edition
McKinney, James, Murray, Ashwill & Nelson
March 2017
ISBN: 978-0-323-40170-8

• Content updates throughout include expanded information on the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman and in children, and the QSEN initiative
• Improved consistency between maternity and pediatric content enhances ease of use for students
• UPDATED! Evidence-Based Practice boxes with newly researched content provide the most current practice guidelines to promote quality care

All titles also available in ebook format.

COMING FALL 2017

Halter
September 2017

- NEW! Neurobiology of the brain feature gives students a clear picture of how disorders affect brain function and explores relevant medications and side effects
- NEW! DSM-5 boxes provide the most up to date DSM-5 information for major disorders
- Revised Grief chapter explores this complex topic in more depth

Calculate with Confidence, 7th Edition
Gray Morris
October 2017

- Over 2,100 practice problems give students a wealth of opportunities to hone their drug calculation skills
- Coverage of the ratio and proportion, formula, and dimensional analysis methods offers a step-by-step approach to the calculation and administration of drug dosages
- Up-to-date information on medication safety and best practices helps students learn how to avoid calculation errors

Maternal Child Nursing Care, 6th Edition
Maternity: Perry, Lowdermilk, Cashion, Alden & Olshansky
Pediatric: Hockenberry, Wilson & Rodgers
October 2017
ISBN: 978-0-323-40152-4

- NEW! Chapter on pediatric cancer
- Focus on the family throughout emphasizes the influence of the entire family in health and illness
- Critical thinking case studies help students test and develop their analytical skills and apply knowledge in various settings

Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care, 9th Edition
Ignatavicius, Workman & Rebar
October 2017
ISBN: 978-0-323-46158-0

- Enhanced emphasis on a conceptual approach to teaching and learning
- NEW! Two all-new nursing concepts chapters — Professional Nursing Concepts and Health and Illness Concepts
- NEW! Integration and highlighting of interprofessional collaboration take the book’s hallmark “collaborative management” approach to the next level
