SAVE TIME and ENHANCE THE CLASSROOM EXPERIENCE with Elsevier Educator Support

TEACH for Nurses

TEACH (Total Education And Curriculum Help) for Nurses, developed in partnership with nursing educators, makes it easier to implement Elsevier texts and eproducts into your curriculum.

Ideal for both new and experienced instructors, these customizable, ready-to-use lesson plans provide everything you need to teach a lesson and make the most out of time spent with students, including:

- Objectives
- Student and educator resource correlations
- Teaching strategies with learning activities and assessment methods
- In-class/online case studies
- Nursing curriculum standard correlations

Included with qualified adoptions to save you course preparation time!

Educator Support

Effectively integrate Elsevier course materials into your curriculum and achieve your educational goals with these educator resources:

- Textbook resources
- Webinars
- Professional development
- White papers
- Education events
- Product training and support
- Academic consulting
- Master Teacher Online
- And much more!

EMPOWER your programs, pass rates, and students’ exam performance with HESI

We’ve combined the expert exam development of HESI and trusted content from Elsevier texts to provide you and your students with a preparation, testing, and remediation solution like no other. It’s everything you need to help students excel throughout your program, track their progress, and prepare them to confidently pass the NCLEX-RN® exam.

+ PRACTICE
  HESI RN Patient Reviews
  Didactic, knowledge-based patient activities teach and assess retention of clinical content and build students’ confidence before they experience actual clinical situations.
  HESI RN Practice Test
  Practice questions written at the application level reflect the standardized item testing formats they will encounter on the licensure examination. Provides detailed answers and rationales.
  HESI RN Case Studies
  Challenge students to apply key concepts and develop their clinical judgment by answering questions and viewing rationales for a range of realistic patient scenarios.

+ EXAMS
  HESI Admission Assessment (A2) Exam
  Assess program applicants’ basic skills and personality and learning styles to select and place prospective students and improve program retention and pass rates.
  HESI RN Specialty Exams
  Measure students’ abilities to apply concepts related to specific clinical nursing content areas throughout the nursing curriculum.
  HESI RN Custom Exams
  Provide Elsevier with your course syllabus or curriculum, and our expert nurse educators will prepare a customized 50-, 75-, or 100-question exam for your program.
  HESI RN Exit Exam
  Measure students’ readiness for the NCLEX-RN® examination with question formats and an exam blueprint matching the latest NCLEX-RN® examination test plan.
  HESI RN Computer Adaptive Test (CAT)
  Provide an individualized testing experience that simulates the NCLEX-RN® exam environment with a tailored item selection exam based on students’ performance on previous items.

+ REVIEW
  HESI Admission Assessment Exam Review, 4th Edition
  Prepare students for their admission assessment exam with comprehensive content review and more than 450 practice test questions on the topics typically found on admission exams.

HESI/Saunders Online Review for the NCLEX-RN® Exam, 2nd Edition*
Self-paced NCLEX-RN® review equipped with 2,500 NCLEX® exam-style review questions, insightful test-taking strategies and rationales with each question, strategic HESI videos, and much more!

*A tool designed to support NCLEX-RN® exam preparation, NOT a predictor of success on the HESI Exit Exam.

HESI Live Review
With personalized, onsite instruction by our expertly trained nurse educators, HESI Live Review courses can be customized using your program’s aggregate results to focus on the topical areas where your students need the most help.

HESI Comprehensive Review for the NCLEX-RN® Examination, 5th Edition
Prepare your students to not only pass their NCLEX-RN® exam, but also their HESI Exit Exam with this concise, all-in-one review.

+ REMEDIATION
Your students benefit from personalized electronic remediation from trusted Elsevier texts, case studies, practice questions, activities, and multimedia, targeted specifically to each student’s unique knowledge deficits. Remediation reports help you keep track of students’ remediation progress.

+ REPORTING
Detailed diagnostic reports are provided for both students and educators. These invaluable reports not only give you insight into individual student exam performance, but also overall program performance. With HESI Report Builder you can also create your own customized reports to track trends within your program and among cohorts.

+ EXAM SECURITY
HESI exams contain numerous functionalities to ensure that each exam remains secure at the highest level.

Translating to a concept-based curriculum?
With Elsevier’s site dedicated to conceptual learning,
YOU CAN DO IT!

Elsevier’s conceptual learning hub provides all the information and resources you need to better understand conceptual learning and how to effectively use it in your program or classroom, including:

- **The latest white papers, trends, and best practices** surrounding concept-based instruction
- **Easy-to-follow explanations** of conceptual learning, including what it is and why it’s so important in nursing education today
- **Steps you need to take** if you are looking to transition to a concept-based curriculum
- **Resources and services** that are available to offer you personalized help with any aspect of your curriculum

Use Giddens’ Concepts for Nursing Practice, 2nd Edition and Nursing Concepts Online (NCO) to help reinforce the integration of conceptual learning in your program.

**Concepts for Nursing Practice, 2nd Edition**
Jean Foret Giddens, PhD, RN, FAAN
2017

**Nursing Concepts Online 2.0**
This fully integrated resource combines all of Elsevier’s top conceptual learning tools into one easy-to-use online format. The course is organized around the 58 nursing concepts found in the Giddens text, and creates the ultimate active learning environment for your students.

---

Provide students with VALUABLE CLINICAL EXPERIENCE using simulations

According to research conducted by the National Council of State Boards of Nursing, the use of simulation for up to 50% of the clinical experience is an effective strategy for preparing pre-licensure students for nursing practice.

Elsevier’s simulation solutions are easy to incorporate into your classroom and offer realistic, hands-on experience in a controlled and monitored environment.

SimChart — Educational EHR
Virtual Clinical Excursions — Online hospital experiences
Simulation Learning System — Evidence-based simulation scenarios
Clinical Skills — Web-based skills training
