The go-to text for compassionately providing occupational therapy to adults with physical disabilities

This cornerstone text provides a foundation for the development of clinical reasoning skills in a comprehensive, case-based learning approach to physical dysfunction. New full-color photos and helpful pedagogy, including threaded case studies, OT Practice Notes, ethical considerations, and end-of-chapter review questions, reinforce learning, enhance retention, and prompt students to apply principles in the clinical setting.

- NEW! Coverage of the Occupational Therapy Practice Framework (OTPF-3) increases students’ understanding of the OTPF-3 and its relationship to the practice of occupational therapy with adults who have physical disabilities
- NEW! Chapter on hospice and palliative care presents the evidence-base for hospice and palliative care occupational therapy, describes the role of the occupational therapist with this population within the parameters of the OTPF-3, and recommends clinician self-care strategies to support ongoing quality care
- NEW! All-new section on the therapeutic use of self, which the OTPF lists as the single most important line of intervention occupational therapists can provide
- UPDATED! Completely revised Spinal Cord Injury chapter addresses restoration of available musculature; self-care; independent living skills; short- and long-term equipment needs; environmental accessibility; and educational, work, and leisure activities
- NEW and EXPANDED! Additional section in the Orthotics chapter looks at the increasing array of orthotic devices available in today’s marketplace, such as robot-assisted therapy to support the weak upper extremity

Included with the text...

EDUCATOR RESOURCES ON EVOLVE
- Image collection
- PowerPoint® slides
- Test bank

STUDENT RESOURCES ON EVOLVE
- Fill-in-the-blank exercises
NEW EDITION!

Strengthen your OT students’ understanding of patient care basics

- NEW! Additional video clips demonstrate patient transfers, ambulation with aids, and maneuvering a wheelchair
- Guidelines, principles, procedures, and precautions boxes throughout the text offer additional tips for optimal assessment and management of patients in the rehabilitation setting
- Video clips on the companion Evolve website demonstrate the techniques and procedures described in the text

Included with the text...

**EDUCATOR RESOURCES ON EVOLVE**
- PowerPoint® slides
- Test bank
- Image collection

**STUDENT RESOURCES ON EVOLVE**
- Procedural video clips
- Interactive case studies
- References linked to Medline abstracts

NEW EDITION!

The only comprehensive geriatric occupational therapy text designed specifically for the OTA

- UNIQUE! Specific focus on the occupational therapy assistant highlights the importance of OTAs in the care of elder clients
- Features an evidence-based, client-centered approach throughout with new evidence briefs included, as appropriate
- Case studies and review questions illustrate key principles and help students understand how content relates to real-life situations

Included with the text...

**EDUCATOR RESOURCES ON EVOLVE**
- Image collection
- PowerPoint® slides
- Test bank

**STUDENT RESOURCES ON EVOLVE**
- Learning activities
