See page 4
NEW EDITION!

Complete coverage of massage fundamentals, techniques, and anatomy and physiology

- UPDATED! Current information throughout, including the latest sanitation protocols, ensures students have the most accurate and applicable content for passing exams and going straight into practice.
- NEW! Critical thinking questions at the end of each chapter help students develop clinical reasoning skills.
- UPDATED! Coverage of current, relevant pathologies reflects what students will see in the field as practitioners.

Included with the text...

- TEACH resources, including:
  - PowerPoint® slides
  - Lesson plans
  - Massage therapy program guide
- Answer keys

NEW EDITION!

Introduce your students to the history, practice, and application of CAM therapies

- NEW! Additional chapters offer fresh perspectives on Quantum Biology and Biofields in Health and Nursing, Integrative Mental Health Care, and Homeopathic Medicine.
- NEW! Updated chapters cover new content and topics, including challenges in integrative medicine, legal issues, CAM in the community, psychometric evaluation, placebo effect, stress management, and much more.
- NEW! Updated guides on common herbal remedies in clinical practice, East and Southeast Asia, and native North and South America deliver the latest therapeutic information.
- NEW! Basic science content and new theory and research studies cover a wide range of sciences such as biophysics, biology and ecology, ethnomedicine, psychometrics, neurosciences, and systems theory.
- NEW! Expanded global ethnomedical systems coverage includes new content on Shamanism and Neo-Shamanism, Central and North Asia, Southeast Asia, Nepal and Tibet, Hawaii and South Pacific, Alaska and Pacific Northwest, and contemporary global healthcare.
