# Elsevier 360

## The Total Curriculum Solution *for LPN/LVN*

Elsevier offers a complete, 360-degree solution for all of your curriculum needs — from building knowledge to applying clinical judgment to assessment and review. Our total solution gives both you and your students a seamless, streamlined experience with innovative products and unrivaled benefits that promote better student performance, NCLEX® readiness, and career success.

**CONTACT** your Elsevier Education Solutions Consultant to learn more.

Create the **ultimate conceptual learning environment** with Nursing Concepts Online

**Nursing Concepts Online for LPN/LVN** is organized around the nursing concepts found in Giddens' *Concepts for Nursing Practice, 3rd Edition* and combines all of Elsevier's top active learning solutions, including:

- Newly enhanced clinical video skills
- Pre-loaded simulation scenarios
- Concept-based case studies
- A fully functional EHR with pre-published patient cases
- Adaptive mastery quizzes
- Priority exemplar links, and more!

## LPN/LVN skills mastery made for the classroom

Give your students a consistent, 360-degree look at more than 140 of the most important LPN/LVN skills.

- Convenient, web-based format is the same professionals use to train
- Consistent seven-part framework for each skill includes:
  1. Quick sheet
  2. Extended text
  3. Equipment list
  4. Demonstration videos
  5. Images and illustrations
  6. Competency tests
  7. Evaluation checklists
- Up-to-date, evidence-based content is reviewed and revised annually to reflect changes in practice as they arise

# Improve your LPN/LVN program outcomes with Elsevier's Testing & Adaptive Solutions

Elsevier's powerful combination of Elsevier Adaptive Quizzing and HESI Review & Testing is the only end-to-end quizzing and testing solution for the LPN/LVN market.

Together, this comprehensive solution offers adaptive and predictive tools designed to assess student readiness for licensure. Plus, both resources include robust reporting and analytical features that allow programs to make informed decisions for improving student outcomes.

## Elsevier Adaptive Quizzing

Available for various key titles, **Elsevier Adaptive Quizzing (EAQ)** helps students of all skill levels focus their study time and effectively prepare for class, course exams, and the NCLEX-PN® exam.

- Leverages classroom and text learning in a dynamic and formative manner
- Enables students to prepare for course exams, lecture, and licensure
- Using reporting features, instructors can identify individual student weaknesses and diagnose classroom trends to address competency gaps

# HESI Review & Testing

Backed by more than two decades of peer-reviewed research and data analyses, HESI provides the most valid and reliable assessments with comprehensive data insights for measuring student learning, improving program outcomes, and predicting NCLEX-PN® exam success.

HESI products include:

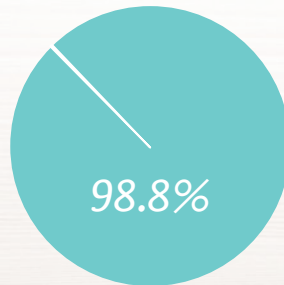

- HESI Admission Assessment Exam
- HESI PN Practice Test
- HESI PN Case Studies
- HESI PN Specialty Exams
- HESI Custom Exams, including HESI Mid-Curricular Exams
- HESI PN Exit Exam
- HESI PN Live Review
- HESI PN-ADN and PN-BSN Mobility Exams

## Did You Know?

The HESI Exit Exam is up to

**98.8%**

predictive of NCLEX-PN® exam pass rates.

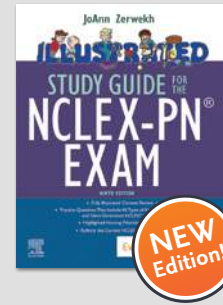

## Use HESI and EAQ together for superior student outcomes

Identify areas needing improvement based on data from HESI reports. Go in-depth with each student's report to identify weaknesses and create personalized remediation quizzes in EAQ.

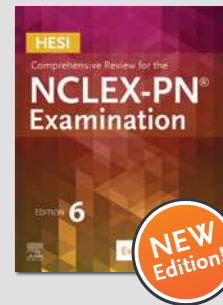

- 1 Prep with EAQ** before administering HESI exams.
- 2 Administer a HESI exam** at any point during the curriculum.
- 3 Evaluate dashboard insights and comprehensive summary reports** to identify any gaps in understanding by class, cohort, or at the student level.
- 4 Create and assign EAQ remediation quizzes** to the entire class or individual students to help close those gaps in understanding and prepare students to pass the NCLEX-PN® exam.

A photograph of four nursing educators in a meeting. Three women and one man are gathered around a table with a laptop. They are engaged in a discussion, with one woman pointing at the laptop screen. The setting is a bright, modern office with large windows in the background.

# Overcome challenges and save time with TEACH

**Ensuring that students are engaged in the classroom, prepared for the NCLEX-PN® exam, and ready for clinical practice takes time.**

**TEACH** (Total Education And Curriculum Help), developed in partnership with nursing educators, makes it easier to implement Elsevier texts and eproducts into your curriculum.

TEACH is available for all of our core LPN/LVN texts, offering everything you need to make the most of time spent with students by creating a dynamic, effective course.

---

## Top five challenges facing LPN/LVN educators across the country, and how TEACH can help.

### Amount of time spent creating lesson plans that align with content

Regardless of which texts you use in your LPN/LVN program, it's critical for student outcomes that lessons presented in the classroom align with the content students are reading in their textbooks.

### With TEACH, you get:

- Ready-to-use lesson plans that are mapped to chapter objectives.
- One-stop classroom planning and preparation tools, including 50-minute lectures with accompanying PowerPoint® slides and notes, discussion questions and answers, classroom activities, and student homework assignments.
- Assessments mapped to lessons and objectives to aid you in test design.

### Consistency of lesson plans/content across programs or campuses

For programs with multiple instructors and/or campuses, your reputation depends on instructional consistency across the LPN/LVN curriculum. TEACH's all-in-one curriculum solution aligns with textbook content and is available to faculty members in any program or on any campus via our Evolve website.

### Securing clinical space for LPN students

As the number of nursing programs has grown, so has competition for clinical sites. The result has been a dramatic increase in the use of simulation products. Incorporating simulation into your lesson plans is made easier with TEACH.

Lesson plans for LPN/LVN core texts published in the last year now include SimChart® EHR assignments mapped directly to the content you present in the classroom.

### Incorporating technology into the classroom

Both instructors and students have varying levels of comfort with technology, but the reality is that employers want graduates to be tech-savvy from day one on the job.

**TEACH lesson plans for titles in Elsevier's LPN/LVN Threads series make it easy to incorporate technology into your classroom with:**

- Online learning activities
- Audience response questions
- Online assessments mapped to objectives
- SimChart® EHR assignments
- And much more!

### Incorporating conceptual learning into lesson plans

Conceptual teaching and learning in nursing education is a very important and rapidly-emerging trend. A growing number of states are adopting this method of instruction,

and to help you make the transition, the majority of Elsevier's LPN/LVN titles have been linked to Jean Giddens' groundbreaking text, *Concepts for Nursing Practice*. This title presents the most common physiologic, behavioral, and professional nursing concepts that are core to nursing practice.

**TEACH can help you seamlessly transition to this instructional method in a few ways:**

- An LPN/LVN-level TEACH lesson plan with lecture outlines, PowerPoint slides, and classroom activities walks you through Giddens' *Concepts for Nursing Practice*.
- eBook versions of many LPN/LVN texts are linked to Giddens' *Concepts for Nursing Practice*, so as you progress through the Giddens text, the concepts link to content in our LPN/LVN textbooks.
- Chapter Focus sections in TEACH LPN/LVN textbook lesson plans identify content that applies to specific concepts and exemplars presented in Giddens' *Concepts for Nursing Practice*.

According to research conducted by the National Council of State Boards of Nursing, the use of simulation for up to 50% of the clinical experience is an effective strategy for preparing pre-licensure students for

nursing practice. Elsevier's simulation solutions are easy to incorporate into your classroom and offer realistic, hands-on experience in a controlled and monitored environment.

## NEW EDITION!

### Provide students with a broad fundamental knowledge of mental health concepts and disorders

- **UPDATED!** Coverage keeps students current with the **latest issues and approaches to mental health care in the United States.**
- **UPDATED!** Content includes new information on **violence, suicide, physical abuse, substance abuse, and schizophrenia.**
- **DSM-5 criteria** are used in the descriptions of all mental health disorders.

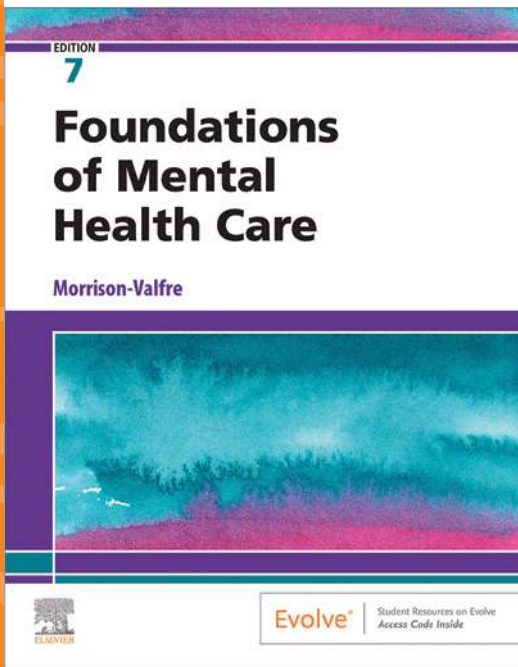

#### Included with the text...

##### EDUCATOR RESOURCES ON EVOLVE

- TEACH instructor resources, including:
  - Lesson plans
  - PowerPoint® slides
  - Student handouts
  - Answer keys
- Test bank
- Study guide answer key
- Next Generation NCLEX-style case studies with Next Generation NCLEX-style review questions

##### STUDENT RESOURCES ON EVOLVE

- Study Guide
- NCLEX-PN-style review questions
- Answer keys for in-text questions

September 2020 • ISBN: 978-0-323-66182-9

Also available as an ebook

## NEW EDITION!

### The practical knowledge and problem-solving skills your students need to succeed as LPN/LVNs

- **NEW! Empowerment feature boxes** highlight tools to help students affect positive outcomes in class, clinicals, and professional practice.
- **NEW! Updated content on delegation** prepares students for immediate leadership positions upon graduation.
- **Collaborative Care boxes** introduce students to management tools and leadership activities.

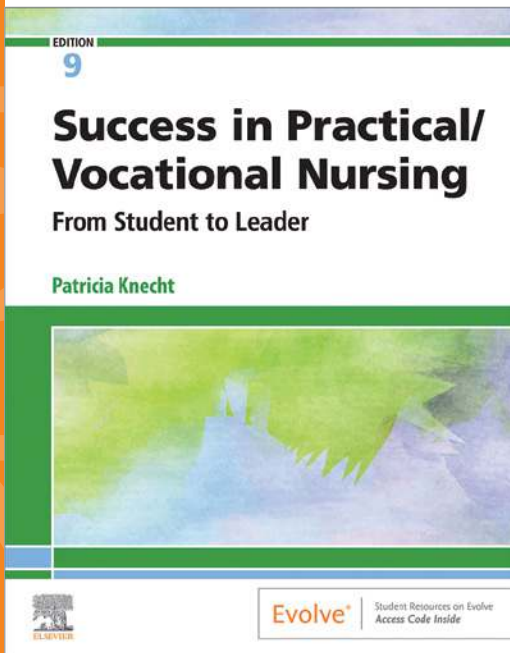

#### Included with the text...

##### EDUCATOR RESOURCES ON EVOLVE

- TEACH instructor resources, including:
  - Lesson plans
  - PowerPoint® slides
  - Student handouts
- Chapter pretests
- Test bank
- Next Generation NCLEX-style case studies with Next Generation NCLEX-style review questions

##### STUDENT RESOURCES ON EVOLVE

- Critical thinking activities
- Answer key for critical thinking scenarios
- Helpful phrases for communicating in Spanish
- Interview preparation

October 2020 • ISBN: 978-0-323-68372-2

Also available as an ebook

## NEW EDITION!

### Help students understand the principles of pharmacology to avoid medication errors

- **NEW! Get Ready for the Next Generation NCLEX® Examination!** section includes key points, review questions, and case studies with Next Generation NCLEX-style questions to prepare students for the new licensure examination.
- **NEW! Reorganized chapters** break up lengthy content and more logically organize pharmacological content by body system or major disorder.
- **Coverage of updated and newly approved pharmaceutical treatments and drugs** prepares students for practice.

#### Included with the text...

##### EDUCATOR RESOURCES ON EVOLVE

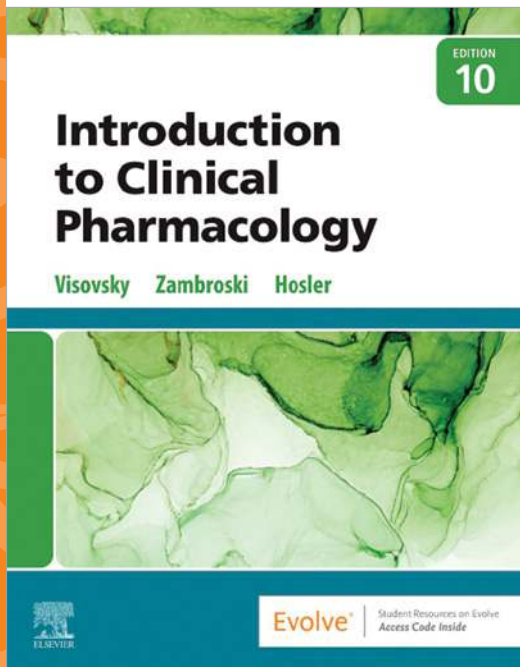

- TEACH instructor resources, including:
  - Lesson plans
  - PowerPoint® slides
  - Student handouts
  - Answer keys
- Image collection
- Chapter pretests
- Test bank
- Next Generation NCLEX-style case studies with Next Generation NCLEX-style review questions

##### STUDENT RESOURCES ON EVOLVE

- NCLEX-style review questions
- Answer keys to chapter review questions
- Drug dosage calculators

#### Complete your course with...

- Study Guide

March 2021 • ISBN: 978-0-323-75535-1

# LPN/LVN Threads: Consistency Across the Curriculum

Elsevier LPN/LVN titles share many common features and design elements, called Threads, that make teaching and learning easier. Texts in the Threads series have a consistent design, a similar reading level (approximately 10th grade), and NCLEX® exam review sections in each chapter.

As students progress through your program and move on to new textbooks, they are already familiar with the Threads features and can immediately focus on learning.

## Get expert advice and insights on preparing students for the Next Generation NCLEX®

To prepare for both the Next Generation NCLEX (NGN) and clinical practice, it's more important than ever for your students to develop solid critical thinking and clinical judgment skills.

As your trusted partner in nursing education, Elsevier is here to provide expert guidance for every step of NGN. We offer a variety of valuable tips and strategies to help you incorporate more activities and tools into your courses that foster and measure students' higher-level thinking and clinical reasoning abilities.

**ELSEVIER**

Elsevier is passionate about education. Our motivating goal in everything we do is preparing today's students for successful nursing careers. How do we accomplish this? We make sure that today's higher learning institutions and educators are well equipped with the latest information, learning technology, and assessment tools so they can effectively guide students in becoming tomorrow's leading health science experts and caregivers.
