Give your students the guidance they need to be good academic citizens!

- **UNIQUE!** Five self-directed learning modules help new health professions students understand all aspects of being an ethical student, including academic civility, honesty, and responsible use of social media.
- **UNIQUE!** Case studies based on real-life issues promote awareness of how seemingly simple decisions can lead to real problems that could prevent them from graduating, hurt their future job prospects, or even harm their patients.
- **UNIQUE!** Interactive exercises help students engage with the content and apply the concepts they are learning.
