Save time and enhance the classroom experience with **Elsevier Educator Support**

TEACH for Nurses

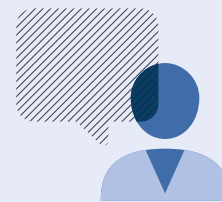

TEACH (Total Education And Curriculum Help) for Nurses, developed in partnership with nursing educators, makes it easier to implement Elsevier texts and eproducts into your curriculum.

Ideal for both new and experienced instructors, these customizable, ready-to-use lesson plans provide everything you need to teach a lesson and make the most out of time spent with students, including:

- Objectives
- Student and educator resource guides
- Teaching strategies with learning activities and assessment methods
- In-class/online case studies
- Nursing curriculum standard correlations

Included with qualified adoptions to save you course preparation time!

Educator Support

Effectively integrate Elsevier course materials into your curriculum and achieve your educational goals with these educator resources:

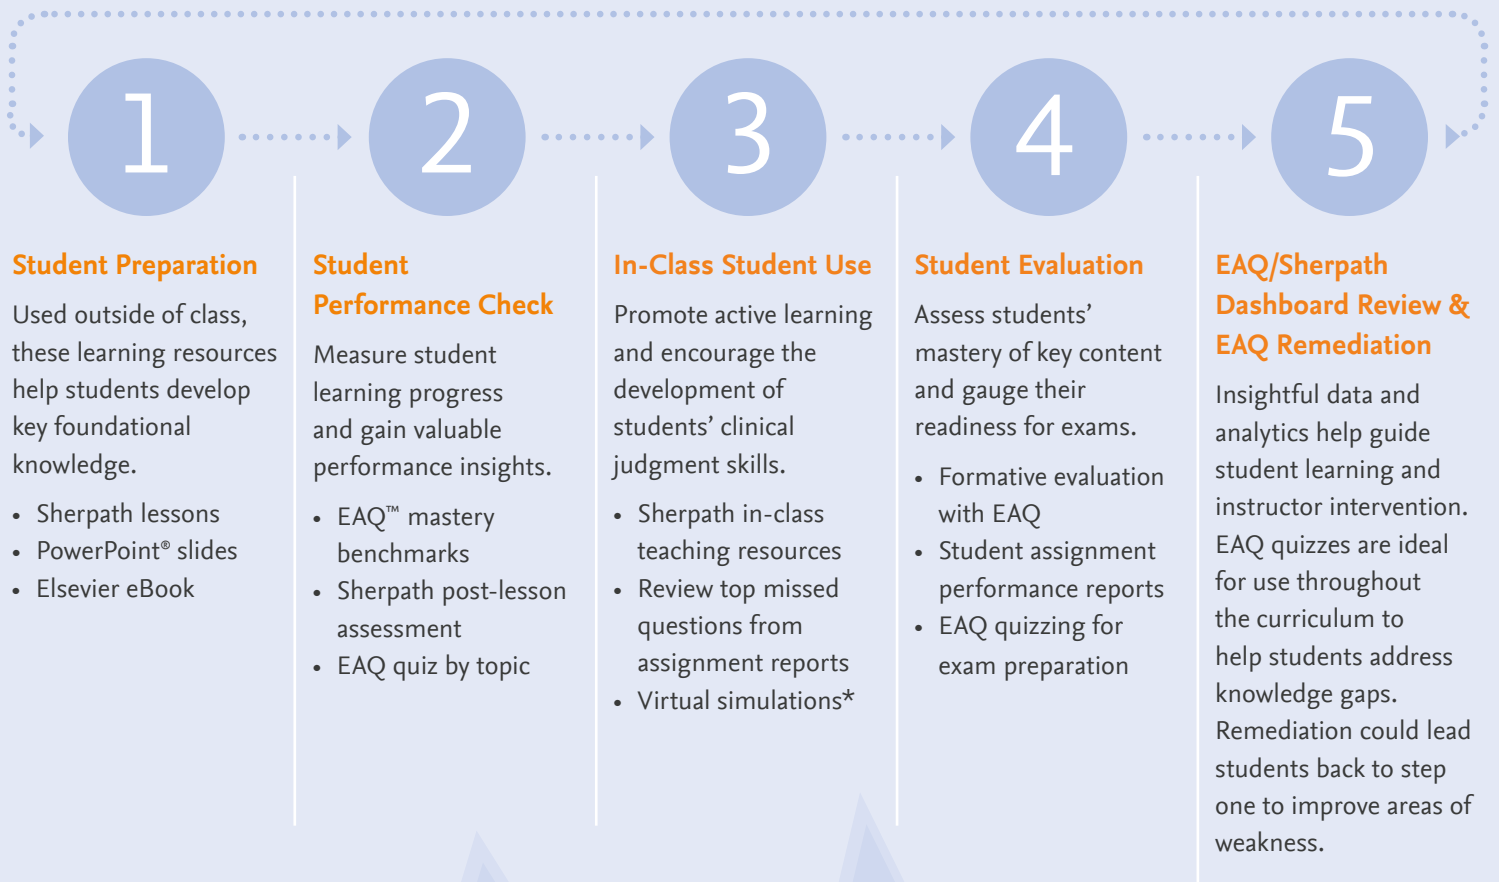

- Textbook resources
- Webinars
- Professional development
- White papers
- Education events
- Product training and support
- And much more!

Enhance Your Nursing Program with Sherpath®!

Sherpath offers a wealth of integrated tools and resources that are designed to work together to reinforce student mastery of key concepts and assess their readiness for unit exams. Here are some strategies and best practices for using these tools to maximize the effectiveness of Sherpath and improve your nursing program outcomes.

*Only available with select Sherpath collections.

NEW EDITION!

Give your students a solid foundation in medical-surgical nursing

- **NEW! Strengthened conceptual approach** with data-driven *Concept* and *Exemplar* selections adds the concepts of pain, inflammation, and infection, and presents exemplar disorders with a nursing-process format and depth to help prepare students for the Next-Generation NCLEX® exam (NGN).
- **NEW and UNIQUE! Enhanced focus on clinical judgment and systems thinking** aligns with the NCSBN® Clinical Judgment Measurement Model and emphasizes the cognitive skills students need for effective clinical judgment, the NGN, and safe clinical practice.
- **NEW! Emphasis on need-to-know content** provides a solid foundation for beginning nurse generalists, including only the most important patient problems for each medical condition, with concise skills coverage for preoperative and postoperative care.

Included with the text...

EDUCATOR RESOURCES ON EVOLVE

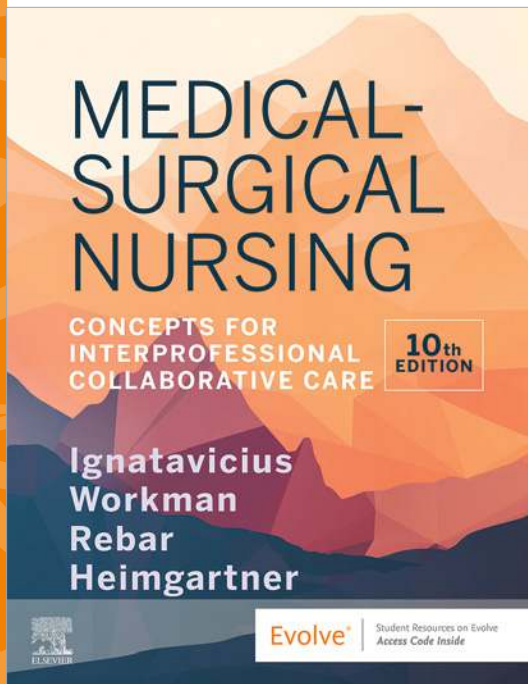

- 75 NGN-style case studies
- TEACH for Nurses lesson plans with NGN support, new systems thinking activities, and expanded concept mapping activities
- 1,500 PowerPoint® slides
- 1,500-item test bank, updated to reflect the latest NCLEX test plan

STUDENT RESOURCES ON EVOLVE

- 100 animations, video clips, and audio clips
- 11 case studies
- Review questions for each chapter
- NGN-style case studies

Complete your course with...

- Study Guide
- Clinical Companion
- Elsevier Adaptive Quizzing
- Sherpath

October 2020 • ISBN: 978-0-323-61242-5

Also available as an ebook

NEW!

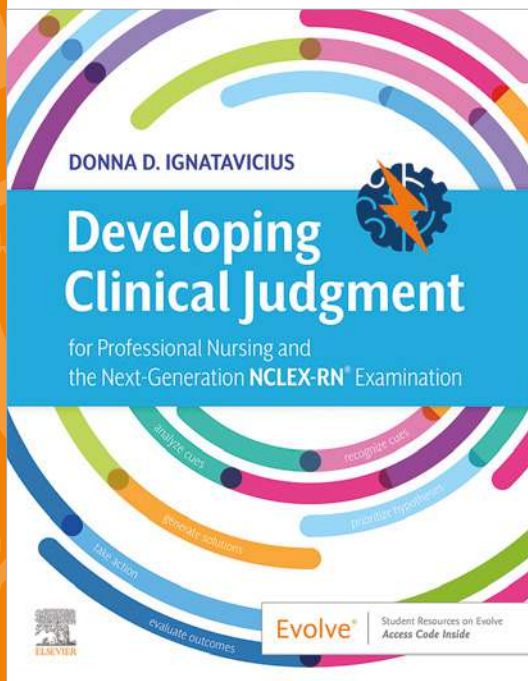

Help students develop the clinical reasoning skills they for success on the Next-Generation NCLEX-RN exam

- **One-of-a-kind workbook dedicated to developing clinical judgment skills** helps prepare students for the NGN exam through practical thinking exercises in which students will apply the NCSBN Clinical Judgment Measurement Model.
- **Comprehensive collection of carefully developed clinical reasoning exercises** range from basic to more complex and address all specialty areas.
- **Answer key with robust rationales** to remediate learning follows at the end of the book.

Included with the text...

STUDENT RESOURCES ON EVOLVE

- A fully interactive application that allows students to read and respond to all thinking exercises from the book in either *Study Mode* or *Exam Mode*, and then receive feedback with the answer and rationale. Questions can be selected and filtered by cognitive processes, specialty areas, or book chapters.

2021 • ISBN: 978-0-323-71858-5

Also available as an ebook

NEW!

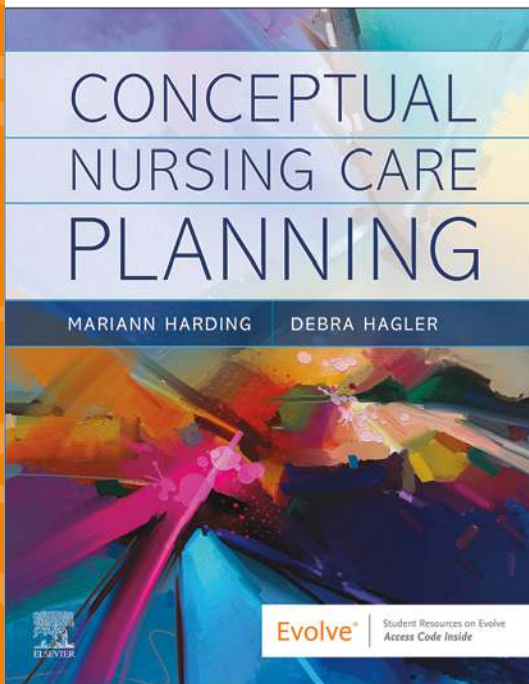

A unique new approach to nursing care planning using standardized clinical problem language organized by Giddens concepts

- 73 conceptual nursing care plans are based on Giddens concepts.
- **Conceptual nursing care plan format** includes a definition of the conceptual clinical problem, clinical problems, common causes, manifestations, outcomes, interventions, related concepts, and related clinical problems.
- **Prioritized care planning guidance** organizes interventions in an assess-intervene-teach format to help students learn how to identify the most important priority interventions for patients.

Included with the text...

STUDENT RESOURCES ON EVOLVE

- Case studies
- Conceptual care map creator

February 2021 • ISBN: 978-0-323-76017-1

Also available as an ebook

NEW EDITION!

Everything students need to pass their psychiatric nursing course and prepare for the NCLEX — in a shorter, streamlined format

- **NEW! Integrative Care boxes** address alternative therapies to treat psychiatric illnesses.
- **NEW! Giddens Concept boxes** at the beginning of each chapter tie to the topics discussed in that chapter.
- **UPDATED! Clinical disorders chapters** such as *Schizophrenia*, *Bipolar Disorders*, *Somatoform Disorders*, and many others reflect the latest evidence-based research and practice.

Included with the text...

EDUCATOR RESOURCES ON EVOLVE

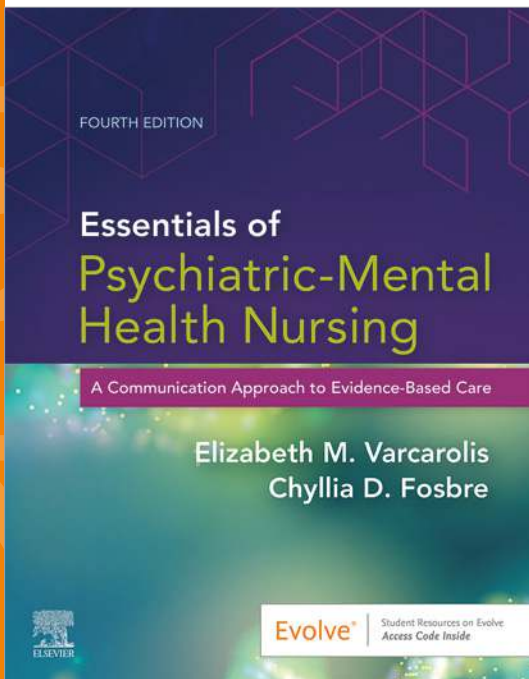

- TEACH for Nurses
- Test bank
- PowerPoint® slides with audience response questions
- Image collection

STUDENT RESOURCES ON EVOLVE

- Case studies and nursing care plans

Empower
your
programs,
pass rates,
and students'
exam
performance
with HESI

We've combined the expert exam development of HESI and trusted content from Elsevier texts to provide you and your students with a preparation, testing, and remediation solution like no other. It's everything you need to help students excel throughout your program, track their progress, and prepare them to confidently pass the NCLEX-RN®.

PRACTICE

HESI RN Patient Reviews

Didactic, knowledge-based patient activities teach and assess retention of clinical content and build students' confidence before they experience actual clinical situations.

HESI RN Practice Test

Practice questions written at the application level reflect the standardized item testing formats they will encounter on the licensure examination. Provides detailed answers and rationales.

HESI RN Case Studies

Challenge students to apply key concepts and develop their clinical judgment by answering questions and viewing rationales for a range of realistic patient scenarios.

EXAMS

HESI Admission Assessment (A2) Exam

Assess program applicants' basic skills and personality and learning styles to select and place prospective students and improve program retention and pass rates.

HESI RN Specialty Exams

Measure students' abilities to apply concepts related to specific clinical nursing content areas throughout the nursing curriculum.

HESI RN Custom Exams

Provide Elsevier with your course syllabus or curriculum, and our expert nurse educators will prepare a customized exam for your program.

HESI RN Exit Exam

Measure students' readiness for the NCLEX-RN® with question formats and an exam blueprint matching the latest NCLEX-RN® test plan.

HESI RN Computer Adaptive Test (CAT)

Provide an individualized testing experience that simulates the NCLEX-RN® environment with a tailored item selection exam based on students' performance on previous items.

REVIEW

HESI Admission Assessment Exam Review, 5th Edition

Prepare students for their admission assessment exam with comprehensive content review and practice test questions on the topics typically found on admission exams.

HESI Live Review

With personalized instruction by our expertly trained nurse educators, HESI Live Review courses can be customized using your program's aggregate results to focus on the topic areas where your students need the most help.

NEW! HESI® Compass™

Combining a comprehensive, personalized online course with support from an expert nurse educator, this innovative new offering bridges the gap between graduation and the NCLEX to maximize your students' first-time NCLEX success.

REMEDIATION

Your students benefit from personalized electronic remediation from trusted Elsevier texts, case studies, practice questions, activities, and multimedia, targeted specifically to each student's unique knowledge deficits. Remediation reports help you keep track of students' remediation progress.

REPORTING

HESI customizable dashboards and detailed diagnostic reports are provided for both students and educators. These invaluable reports not only give you insight into individual student exam performance, but also overall program performance. With HESI Report Builder you can also create your own customized reports to track trends within your program and among cohorts.

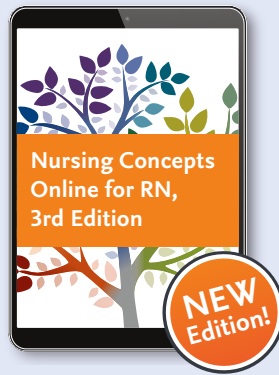

EXAM SECURITY

HESI exams contain numerous functionalities to ensure that each exam remains secure at the highest level.

Transitioning to a concept-based curriculum?

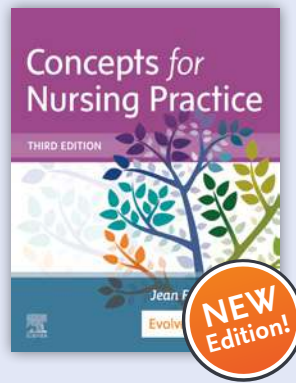

Elsevier offers everything you need to build a concept-based curriculum and integrate conceptual learning in your program.

Nursing Concepts Online for RN, 3rd Edition

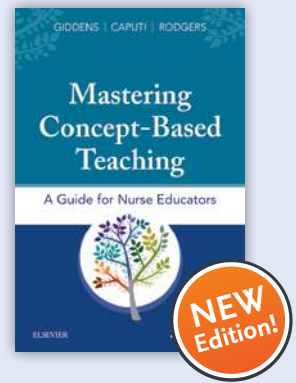

This fully integrated and newly updated resource combines all of Elsevier's top conceptual learning tools into one easy-to-use online format. The course is organized around the 57 nursing concepts found in the Giddens text, and creates the ultimate active learning environment for your students.

Provide students *with* VALUABLE CLINICAL EXPERIENCE using simulations

According to research conducted by the National Council of State Boards of Nursing, the use of simulation for up to 50% of the clinical experience is an effective strategy for preparing pre-licensure students for nursing practice.

Elsevier's simulation solutions are easy to incorporate into your classroom and offer realistic, hands-on experience in a controlled and monitored environment.

ELSEVIER

Elsevier is passionate about education. Our motivating goal in everything we do is preparing today's students for successful nursing careers. How do we accomplish this? We make sure that today's higher learning institutions and educators are well equipped with the latest information, learning technology, and assessment tools so they can effectively guide students in becoming tomorrow's leading health science experts and caregivers.
