Case Studies and Clinical Simulations for Respiratory Care, 2nd Edition
See page 4
Prepare students for the Clinical Simulation Exam portion of the NBRC registry exam

- **NEW!** Three additional case studies and clinical simulations in the areas of adult trauma, adult neurological/neuromuscular, and neonatal.
- **NEW!** Anatomy animations improve user understanding of important respiratory care procedures and concepts.
- **NEW!** Additional breathing sounds provide more depth to patient assessment data.
- **UNIQUE!** Case studies with parallel clinical simulations offer real-life patient management scenarios that provide users with the chance to practice information gathering and decision making before taking the very difficult NBRC CSE portion of the RRT exam or before moving into the clinical setting.
- **Branching logic format for the clinical simulations** is similar to the testing feature used on the NBRC CSE, presenting a logical progression and creating a "cause and effect" style of learning; i.e., decisions made will determine patient care pathway.

**NEW EDITION!**

**ELSEVIER ADAPTIVE QUIZZING** sets students on a personalized, interactive path to course success!

**Elsevier Adaptive Quizzing for Respiratory Care, 2nd Edition**

Elsevier Adaptive Quizzing (EAQ) is the fun and engaging formative assessment tool that serves up personalized questions aligned to the exam blueprints for both the CRT- and RRT-level exams.

- **UNIQUE!** Elsevier’s trusted, market-leading content
- Detailed rationales
- Performance dashboards
- Alternate item types
- Assignable and gradable quizzes
- Student self-quizzing

The following textbooks are used for remediation in EAQ:

- **Walsh:** Neonatal and Pediatric Respiratory Care, 5th Edition
- **Des Jardins:** Clinical Manifestations and Assessment of Respiratory Disease, 8th Edition
- **Cairo:** Pilbeam’s Mechanical Ventilation, 7th Edition
- **Gardenhire:** Rau’s Respiratory Care Pharmacology, 10th Edition
- **Kacmarek:** Egan’s Fundamentals of Respiratory Care, 12th Edition

The Secret to NBRC® Exam Success in a Comprehensive Solution!

Elsevier offers a powerful review solution to help you give students everything they need to build their respiratory care knowledge and test-taking confidence in preparation for the Therapist Multiple-Choice Exam (TMC®) and Clinical Simulation Exam (CSE®).  **Elsevier’s TMC and CSE Exam Success Solution includes:**

1. **Elsevier Adaptive Quizzing for Respiratory Care, 2nd Edition**
   - Set your students on a personalized path to exam success with Elsevier Adaptive Quizzing. It features thousands of high-quality practice questions to prepare your students for course exams, HESI tests, and ultimately the TMC.

2. **Case Studies and Clinical Simulations for Respiratory Care, 2nd Edition**
   - Give your students the most comprehensive and realistic preparation for the CSE portion of the NBRC registry exam. Featuring real-life patient management scenarios in a computerized test-taking environment modeled after the NBRC CSE experience, this versatile review prepares your students to succeed both in the classroom and in the real-world clinical setting.

3. **HESI Respiratory Care Practice Test and Exit Exam**
   - Assess students’ readiness for the certification exam with question formats and an exam content outline matching the latest TMC test plan. HESI Exit Exams and Practice Tests help you identify each student’s strengths and weaknesses to provide individualized review and remediation to address knowledge deficits prior to taking the certification exam.
