Be the difference

for your students with

Elsevier's Total Solution Partnership

Elsevier's Total Solution Partnership gives you access to tried and tested course materials, the latest online learning, comprehensive evaluation resources, reliable NCLEX® review tools, and full consultancy and implementation support for students and faculty.

Elsevier's Total Solution Partnership has many distinct benefits!

Our Total Solution Partnership offers the unique convenience of getting all of your course materials from one trusted provider — Elsevier. This gives both you and your students a comprehensive and consistent program experience with unrivaled benefits that promote better student performance, NCLEX readiness, and career success.

Compatible

Partnering with a single provider means that all the products supporting your program work together and work for you.

Comprehensive

Only Elsevier can deliver a complete solution that covers all your students' curriculum needs from admission to graduation, and beyond.

Consistent

Trusting Elsevier for your course materials allows you to offer consistent content and objectives throughout your program.

Current

Elsevier has a proven history of providing authoritative, accurate, and up-to-date educational content that reflects the latest advances in nursing and the most recent NCLEX test plan.

[EXPLORE THE SOLUTION >>](#)

TOTAL SOLUTION PARTNERSHIP

Build Knowledge

Elsevier helps students cultivate content mastery throughout the curriculum with engaging technology that complements our market-leading textbooks to ensure students both learn and understand the key nursing concepts that form the foundation for their success. Competence with the procedures and skills specific to their role as nursing professionals develops through a combination of theory, observation, interactive technology, and real-world practice.

Our subject matter experts are hard at work developing content, case studies, and item types for the Next Generation NCLEX® (NGN) to ensure you have the tools to begin preparing students.

TOTAL SOLUTION PARTNERSHIP

Apply Clinical Judgment

Whether students are developing their understanding of a broad range of patient situations or honing their clinical judgment abilities in preparation for clinical rotations, Elsevier delivers content-based scenarios that allow students to practice in a safe, learning-based environment. Students develop both confidence and competence as they prepare for the NCLEX and practice.

Ensure strong clinical judgment skills through innovative, reliable simulation solutions.

Clinical Skills: Skills for LPN/LVN Collection

SimChart® for Nursing

HESI® PN Case Studies

TOTAL SOLUTION PARTNERSHIP

Assess and Review

Monitoring performance from day one with practice quizzing and a full collection of assessment tools allows students to master content along the way, while evaluating their progress at key points in your program. When the time to take the NCLEX draws near, students can prepare with content review and adaptive quizzing that help them gain the skills and confidence they need to pass the first time.

With the addition of item types for NGN in our assessment tools, students can prepare for how the exam will change.

Elsevier Adaptive Quizzing for LPN/LVN

HESI® PN Specialty Exams

HESI® Custom Exams, including HESI® Mid-Curricular Exams

HESI® PN Practice Test

HESI® PN Exit Exam

HESI® PN Live Review

HESI® PN-ADN and PN-BSN Mobility Exams

Let us help you prepare students for the Next Generation NCLEX®

As your trusted partner in nursing education, Elsevier is here to provide expert guidance for every step of Next Generation NCLEX (NGN). We've been hard at work adding new and updated content to all our nursing products, as well as writing new NGN question types, to help you incorporate more activities and tools into your courses that foster and measure students' higher-level thinking and clinical reasoning abilities.

At one of our recent digital events, a variety of key NGN players, including NCSBN's Chief Operating Officer, Phil Dickison, Elsevier authors, Donna Ignatavicius and Linda Silvestri, and Elsevier's Director for HESI Content Operations, Donna Spivey, provided the following insights into new test updates and how you can plan ahead:

- Unfolding case studies will include six items in a case, with a rendition of a client care record that provides data as the basis for the questions. Item types are associated with the six cognitive skills outlined in Layer 3 of the NCSBN Clinical Judgment Measurement Model (NCJMM) tested in these case studies.
- Standalone items will include similar client care record tabs with information regarding the question, but there will be a single test item monitoring aspects of clinical judgment compared to the unfolding case study.

- The new scoring model will have polytomous scoring with partial credit given to nursing candidates to accommodate a more precise measurement for the new item types. This also reduces the impact of random guessing. The partial credit varies among the different item types.
- To prepare students for the NGN, Donna Ignatavicius and Linda Silvestri suggest three phases: **1)** focus on clinical judgment, **2)** introduction to the new NGN test items, and **3)** readiness for the NGN.
- To bring clinical judgment to the forefront of simulation and clinical lab, faculty should focus on how students think through their decision-making process, in addition to whether they did the right thing in the given clinical scenario.
- Regarding NCLEX pass rates, students who are taking minimum-length exams and passing are doing well with clinical judgment based on the special research section. Those who are taking the maximum-length exam will be the most impacted by the NGN.

NEW EDITION!

Equip your students with the skills essential to clinical practice

- **NEW!** Case studies for the Next Generation NCLEX® and new format questions prepare students for the licensure examination.
- **NEW!** Discussion of the NCSBN Clinical Judgment Measurement Model helps students develop the skills needed to plan effective nursing interventions.
- **Thoroughly updated Asepsis and Infection Control chapter** prepares students for today's healthcare environment.

Included with the text...

EDUCATOR RESOURCES ON EVOLVE

- TEACH instructor resources, including:
 - Lesson plans
 - PowerPoint® slides
 - Answer keys
- Test bank
- Case studies and review questions for the Next Generation NCLEX

STUDENT RESOURCES ON EVOLVE

- Review questions for the NCLEX-PN®
- Answer key to end-of-chapter review questions
- *Body Spectrum* online anatomy coloring book

Complete your course with...

- Sherpath
- Elsevier Adaptive Quizzing
- Study Guide

NEW EDITION!

Make sure your students have the foundation they need to begin a successful nursing career

- **NEW!** Case studies for the Next Generation NCLEX® and new format questions prepare students for the licensure examination.
- **NEW!** Discussion of the NCSBN Clinical Judgment Measurement Model helps students develop the skills needed to plan effective nursing interventions.
- **Coverage of skills across the lifespan** includes maternity, pediatrics, adults, and older adults.

NEW EDITION!

Coverage of the basic A&P and medical-surgical nursing LPN/LVNs need to succeed

- **NEW!** Case studies for the Next Generation NCLEX® and new format questions prepare students for the licensure examination.
- **NEW!** Discussion of the NCSBN Clinical Judgment Measurement Model helps students develop the skills needed to plan effective nursing interventions.
- **Overview of Anatomy and Physiology** at the beginning of all body systems chapters, and an *Introduction to Anatomy and Physiology* chapter provide a clear, basic understanding of the A&P that LPN/LVNs need to know.

Included with the text...

EDUCATOR RESOURCES ON EVOLVE

- TEACH instructor resources, including:
 - Lesson plans
 - PowerPoint® slides
 - Answer keys
- Test bank
- Case studies and review questions for the Next Generation NCLEX

Sherpath® — Book-Organized

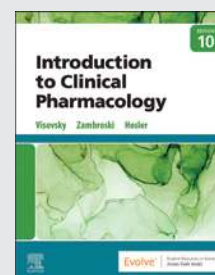

Sherpath, the digital teaching and learning technology designed specifically for healthcare education, is now available in book-organized versions for select titles. **Book-Organized Sherpath** offers objective-based digital lessons, adaptive quizzing, and teaching materials that align chapter-by-chapter to your trusted Elsevier textbooks for quick and easy access to invaluable class activities and resources.

Available for:

Elsevier

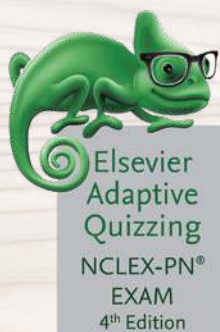

Williams: Fundamental Concepts and Skills for Nursing, 6th Edition — Sherpath for Fundamentals
ISBN: 978-0-323-87364-2

Elsevier

Visovsky: Introduction to Clinical Pharmacology, 10th Edition — Sherpath for Pharmacology
ISBN: 978-0-323-87365-9

Elsevier Adaptive Quizzing

Elsevier Adaptive Quizzing for the NCLEX-PN® Examination, 4th Edition

ISBN: 978-0-323-88236-1

With more than 9,000 questions, **Elsevier Adaptive Quizzing for the NCLEX-PN® Examination** serves up personalized content to help students prepare for high-stakes, end-of-program exams, including the HESI® Exit Exam and the NCLEX-PN exam. It's ideal for use throughout your curriculum to give students valuable early exposure to high-quality, NCLEX exam-style questions. Plus, formative assessment technology customizes material to each student's competence and proficiency, allowing them to progress at their own pace toward content mastery — all in an individualized, interactive way.

LPN/LVN Threads: Consistency Across the Curriculum

Elsevier LPN/LVN titles share many common features and design elements, called **Threads**, that make teaching and learning easier. Texts in the Threads series have a consistent design, a similar reading level (approximately 10th grade), and NCLEX® exam review sections in each chapter.

As students progress through your program and move on to new textbooks, they are already familiar with the Threads features and can immediately focus on learning.

ELSEVIER

Elsevier is passionate about education. Our motivating goal in everything we do is preparing today's students for successful nursing careers. How do we accomplish this? We make sure that today's higher learning institutions and educators are well equipped with the latest information, learning technology, and assessment tools so they can effectively guide students in becoming tomorrow's leading health science experts and caregivers.
