## Celebrating Nurses

This month, we celebrate the nurse educators who dedicate their careers to ensuring the next generation of nurses is practice ready. We are beyond grateful for the work you do to benefit the lives of your students and of every patient they care for in the future! As part of our celebration, we have launched a new Resources for Nurses website that brings together helpful insights and information to support your professional development, self-care, and wellbeing. Each month, we'll add new content on key topics in nursing, along with journal articles, videos, and more.
