Delivering solutions to
support your program goals.

Elsevier's Imaging Sciences Curriculum Solution

Elsevier is the only education provider that can deliver everything needed to support your Imaging Sciences program in one solution.

Build Knowledge

Elsevier helps students cultivate content mastery throughout the curriculum with engaging technology that complements our market-leading textbooks to ensure they both learn and understand the key concepts that form the foundation for their success.

ELSEVIER ADAPTIVE QUIZZING

Elsevier Adaptive Quizzing (EAQ) integrates seamlessly into your course or program to help students of all skill levels focus their study time and effectively prepare for class, course exams, and summative exams.

EAQ is comprised of a bank of high-quality practice questions that allows students to advance at their own pace — based on their performance — through multiple mastery levels for each chapter. A comprehensive dashboard and reporting capabilities enable you to monitor the activity of individual students, assess overall class performance, and identify areas of strength and weakness, ultimately helping to achieve improved learning outcomes.

NEW EDITION!

Help students quickly and easily visualize anatomy and understand positioning

- **UPDATED!** Reflects the latest ARRT competencies and ASRT curriculum guidelines to prepare students for boards and clinical practice.
- **Labeled radiographs** (radiographic overlays) identify key radiographic anatomy and landmarks to help students recognize anatomy and determine if they have captured the correct diagnostic information on images.
- **Unique page layout** presents positioning photos, radiographic images, and radiographic overlays side-by-side with the text explanation of each procedure to facilitate comprehension and retention.

Included with the text...

EDUCATOR RESOURCES ON EVOLVE

- Test bank with approximately 900 questions
- PowerPoint® slides
- Image collection
- Answer keys
