LPN/LVN Threads: Consistency Across the Curriculum

Elsevier LPN/LVN titles share many common features and design elements, called Threads, that make teaching and learning easier. Texts in the Threads series have a consistent design, a similar reading level (approximately 10th grade), and NCLEX® exam review sections in each chapter.

As students progress through your program and move on to new textbooks, they are already familiar with the Threads features and can immediately focus on learning.
