# EAQ NG: Creating a Custom Quiz

A Custom Quiz delivers a set number of questions to students from a topic or topics you select. The question level of difficulty automatically adapts to each individual student's mastery level in the chosen topics, meaning that students will receive different quiz questions. These questions also count towards their mastery goals.

1. Click on the link to EAQ within your course.

2. Click the "Create Quiz Assignment" blue button from either the HOME or ASSIGNMENTS screen.

3. The Create Quiz page opens with three quizzing choices. Click the radio button to the left of "Custom".

Set an assessment goal for this assignment

○ Mastery
Unlimited, personalized questions will be presented until students level up in the topic of your choice.

◉ Custom
Choose a finite number of questions in the topic(s) of your choice. These questions will be personalized for students and can help students level up.

○ Custom by questions
Choose specific questions to include in your quiz. All students will receive the same hand-selected questions which can help students level up in respective topics.

4. Next, click the corresponding radio button to select whether the quiz is to be assigned to "All Students in Course" or "Some Students".

Select Students

● All Students in Course
