LATEST EDITION!

Brown's Atlas of Regional Anesthesia

Trusted by anesthesiologists, nurse anesthetists, and pain management specialists through five outstanding editions, Brown's Atlas of Regional Anesthesia, 6th Edition, continues to keep you fully informed and up to date in this fast-changing field. This practical how-to guide demonstrates each technique in an easy-to-follow manner, providing unmatched guidance on administering a wide range of nerve block techniques in all areas of the body. New videos, new illustrations, and new chapters improve your knowledge and expertise, helping you provide optimal, safe regional anesthesia to every patient.

- Covers the full range of key regional anesthesia topics including anatomy, local anesthetic pharmacology, traditional landmark-based and ultrasound-guided blocks, pediatric regional anesthesia, and chronic pain procedures.
- Features step-by-step instruction highlighted by superb artwork, new anatomical drawings, and clinical photographs—now entirely in full color.
- Includes access to a video library that includes numerous new videos covering every block described in the atlas, a new introductory video on daily clinical practice procedures, and enhanced voiceover on all videos.

ISBN: 9780323596046

LATEST EDITION!

Miller's Anesthesia, 2-Volume Set

Covering everything from historical and international perspectives to basic science and current clinical practice, Miller's Anesthesia, 9th Edition, remains the preeminent reference in the field. Dr. Michael Gropper leads a team of global experts who bring you the most up-to-date information available on the technical, scientific, and clinical issues you face each day – whether you're preparing for the boards, studying for recertification, or managing a challenging patient care situation in your practice.

- Contains fully revised and updated content throughout, including numerous new videos online.
- Includes four new chapters: Clinical Care in Extreme Environments: High Pressure, Immersion, and Hypo- and Hyperthermia; Immediate and Long-Term Complications; Clinical Research; and Interpreting the Medical Literature.
- Addresses timely topics such as neurotoxicity, palliation, and sleep/wake disorders.
