

# Nursing Education Newsletter

September 2021 | Volume 2

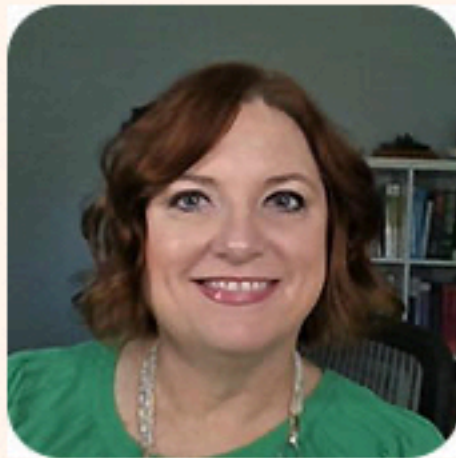

**Guarantee your students are patient ready**

Simulations | September 22, 2021

Being a nurse goes beyond memorizing correct answers for the NCLEX®. It's about having the ability to think in action and to know instinctually how to give exceptional care to those who need it. Giving students the ability to constantly practice these skills to prepare them for successful careers is essential. With an expanded simulation suite, Elsevier is prepared to facilitate clinical learning in numerous ways.

## Viewpoints

Although clinical judgment has been in the spotlight given the changes coming on the Next Generation NCLEX, it's not a new concept to nursing faculty. Learn how simulations can support clinical judgment in any environment and the difference it makes to students.
