Creating an EAQ Custom by Questions Quiz

1. First, access Sherpath within your course.
2. The **Home** page appears.
3. Click on the **Course Plan** link.

4. Then, click the **Week** for your lesson. It will expand.

5. Click Add Quiz.

The screenshot shows the Sherpath interface. On the left is a dark sidebar with navigation options: Home, Course Plan (highlighted), Performance, EAQ, Ebooks, Log out, Report a Bug, Report a Content Error, Submit Feedback, Contact Us, Help & Support, Training, and Export Grades. The main content area is titled 'Course Plan' and 'Sherpath Sims & Skills'. It features a 'Expand all weeks' link and a list of weeks: Week 1 (Feb 17 to Feb 23), Week 2 (Feb 24 to Mar 2 This Week), and Week 3 (Mar 3 to Mar 9). Under Week 3, three items are listed: 'Daily Operations in the Ambulatory Care Facility', 'The Health Record', and 'Basic Diagnostic Coding'. At the bottom of the main content area, a red box highlights a button labeled 'Add Quiz', with a red circle containing the number '5' next to it.

6. Click Adaptive EAQ Quiz.

The screenshot shows the 'Choose a quiz' dialog box in the Sherpath interface. The dialog has a dark background and two options. On the left, 'Adaptive EAQ Quiz' is selected and highlighted with a red box and a red circle containing the number '6'. Below this option, it says 'Students take quiz using Elsevier Adaptive Quizzing'. On the right, 'Non-adaptive Quiz' is shown with a greyed-out icon and text: 'Students take quiz using Sherpath'. The background shows a blurred view of the Course Plan interface with a list of weeks and their expand/collapse arrows.

7. Select the **Custom by questions** radio button. **Custom by questions** quizzes allow the instructor to select specific questions from the chapters they choose.

NOTE: While **Custom by Questions** *is not adaptive*, it is useful for creating longer quizzes containing multiple chapters of content with the same questions being delivered to each student.

The screenshot shows a three-step process for creating a quiz. Step 1 is 'Select goal & students' with a sub-option 'Custom by questions | ALL'. Step 2 is 'Choose content'. Step 3 is partially visible. The main content area is titled 'Set an assessment goal for this assignment' and contains three radio button options: 'Mastery' (Unlimited questions until students level up in the topic of your choice.), 'Custom' (Choose a set number of questions in the topic(s) of your choice. These questions can also help students level up.), and 'Custom by questions' (Choose specific questions to include in your quiz. These questions can also help students level up.). The 'Custom by questions' option is selected and highlighted with a red box. A red circle with the number 7 is positioned to the left of this option.

8. Next, select either **All Students in Course** or **Some students**.
 - a. **All Students in Course** – Any new students added will also get this assignment.
 - b. **Some students** – select this if the quiz is to be assigned only to specific students in the class; any new students added will NOT get this assignment.
9. Click **Next** in the lower right of the screen.

Select Students

8 a All Students in Course
Any new students added will also get this assignment

b Some students
Any new students added will NOT get this assignment

Cancel

9 Next

10. Now, we have options to **Select questions:**

a. **Find questions by keyword**

b. **Filter by Questions set and Topic Organization** by clicking the dropdown and choosing our Sherpath product.

c. As you click on a chapter radio button, a list of relevant questions filters to the right.

NOTE: At this point, it is important to determine the length of your quiz as well as which chapters will be included.

11. To view a question fully with its answer, click **View question** underneath.

12. If you decide to use a question for your quiz, simply click **Add**.

13. When you have completed adding questions, click **Review Questions** in the lower right corner.

16. On the next page, specify a unique name for the quiz under **Assignment Name**.

17. Now, **Select grading options**:

- a. **Not graded**
- b. **Graded-Pass/Fail** - In contrast to a Mastery Quiz, for a Custom Quiz, the students will pass the quiz if it completed, *regardless of the score they receive on the quiz*, and the students will fail if they do not complete the quiz by the due date.
- c. **Graded-Scored (most commonly used)** - This option will pass a percentage score back to the gradebook.

The screenshot shows a form with the following elements:

- A header section titled "Assignment Name".
- A text input field containing "Untitled", with a red circle containing the number "16" to its left.
- An example text below the input field: "e.g. Personal hygiene quiz week 1 quiz".
- A section titled "Select grading options" with a red circle containing the number "17" to its left.
- Three radio button options:
 - a. Not graded
 - b. Graded-Pass/Fail
 - c. Graded-Scored

A red rectangular box highlights the three radio button options.

18. Next, we determine how we want the quiz presented to the students. We have two

Quiz options:

- a. **Study mode** - The rationale is presented directly after the student answers each question.
- b. **Exam mode** - The rationales are presented only at the end of the quiz.

18 Quiz options

a **Study mode**
Question ► *Rationale* ► Question ► *Rationale* ► ... ■ *All Rationales*
Students can choose to see rationale **after answering each question.**
Rationales are always shown at the end of the quiz regardless of the mode selected.

b **Exam mode**
Question ► Question ► Question ► Question ► ... ■ *All Rationales*
Student will only see rationale **at the end of the quiz.**

19. The final options concern the dates when the assignment will be available to the students and subsequently due. Set when the dates/times are available and due by selecting the calendar and time dropdowns.

NOTE:

- Verify that the availability and due dates are correct.
- After the assignment has been started by a student, only the due date can be modified by the instructor.
- Students will be able to take the quizzes past the due date assigned, *but any late submissions will not report to your gradebook*. If you allow a late grade, have the student send you a screenshot of their grade and you can manually enter it into your gradebook.

20. Once your quiz parameters are established, click **Assign Quiz** in the lower right of the screen.

The screenshot displays a quiz configuration interface. At the top, it asks "When will the assignment be available?". Below this, there is a date selection field showing "01/31/2019" with a calendar icon, and a time selection field showing "08 : 49" with up/down arrows and a dropdown for "am". The time zone is set to "CST". A red circle with the number "19" is next to the time selection. Below this, it asks "When will the assignment be due?". There is a date selection field showing "02/02/2019" with a calendar icon, and a time selection field showing "11 : 59" with up/down arrows and a dropdown for "pm". The time zone is set to "CST". A red circle with the number "19" is next to the time selection. At the bottom of the interface, there are two buttons: "Back" and "Assign Quiz". The "Assign Quiz" button is highlighted with a red box and a red circle with the number "20".

21. You will automatically be returned to the **Course Plan** page where your new quiz has appeared in the **Quizzes** section dropdown under the week it is due.
- a. The students will not be able to see the quiz until the available date and time.
22. To make changes to a quiz, click on the quiz **title** or on the **three dots** to the right of the quiz under the **Actions** column and click **Edit**.

The screenshot shows the Sherpath Course Plan interface. On the left is a navigation sidebar with options: Home, Course Plan (highlighted with a red box and a '21' badge), Performance, EAQ, Ebooks, Log out, Report a Bug, Report a Content Error, and Submit Feedback. The main content area is titled 'Course Plan' and shows 'Week 12' (Jan 27 to Feb 2 This Week) with a red 'a' badge. Below this are sections for 'Assessment', 'Nutrition', and 'Medication Administration', each with a 'MOVE' icon and a dropdown arrow. A 'Quizzes' section is also present, with a red '21' badge. Below the quizzes is a table with columns: Title, Resource Type, Due Date/Time, and Actions. The first row in the table is 'Chapters 1 & 2 Custom by Questions' (highlighted with a red box and a '22' badge), with Resource Type 'Quiz' and Due Date/Time '02/02 11:59 PM'. The 'Actions' column for this row shows a 'More actions' dropdown menu (highlighted with a red box and a '22' badge) containing an 'Edit' button.

Title	Resource Type	Due Date/Time	Actions
Chapters 1 & 2 Custom by Questions	Quiz	02/02 11:59 PM	More actions Edit
Chapters 1 & 2 Custom	Quiz	02/02 11:59 PM	

Viewing the Performance Report for an EAQ Custom by Questions Quiz

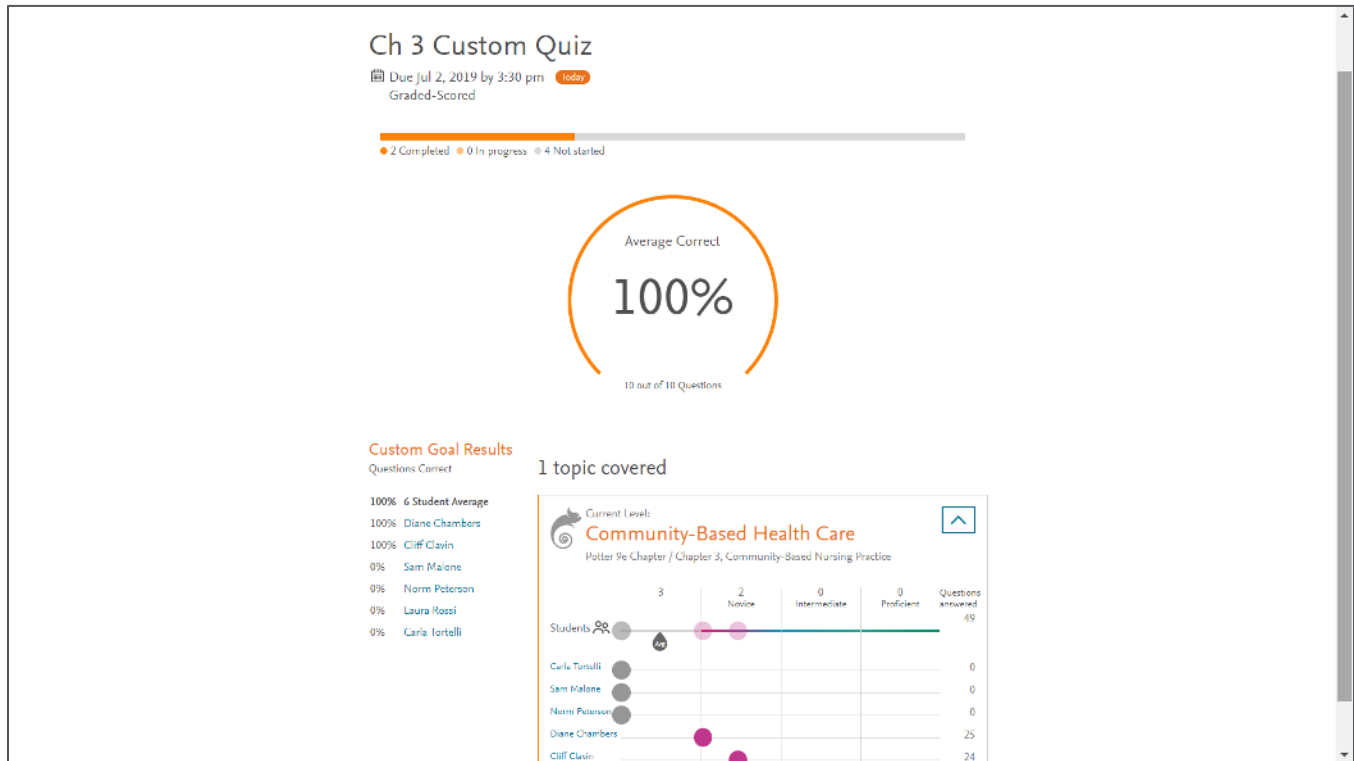

23. To view Performance for a quiz, click the **Home** option from the menu on the left.

Title	Resource Type	Due Date/Time	Actions
Ch 3 Custom by Questions Quiz	Quiz	07/02 2:30 PM	...
Ch 3 Custom Quiz	Quiz	07/02 2:30 PM	...
Ch 3 Mastery Quiz	Quiz	07/02 2:30 PM	...

NOTE: Once the due date has passed, the Performance Report for the quiz will populate on the Home page, to the right of the quiz.

24. Click the **Performance Report Chart icon** to view your students' scores, as well as analytics pertaining to the quiz.

Due	Resource Type	Title	# of Incomplete Students (out of 5)	Performance Report
